

19 Days Old with a Low birth weight His Hope: You

When Jagrutiben Thakor's Son from Umreth taluka in Anand district was diagnosed with low birth weight, his family of daily-wagers gave up hope.

He is under treatment at Shree Krishna Hospital. He is being presently treated in the NICU. The cost of treatment, along with prolonged hospital stay, would be Rs 2,00,000 which is unaffordable for a patient belonging to the weaker section of society. But the child hopes and fights on. And with your support, he will win this battle.

Do send or Gift Aid your contribution in favour of '**Charutar Arogya Mandal**' by Cheque / Draft / Money order at the earliest. The contribution is exempted from Tax under section 80G.

ACCREDITED FOR HOSPITAL • BLOOD BANK • DIAGNOSTIC LABORATORIES • IMAGING SERVICES
