ACREDITED FOR HOSPITAL • BLOOD BANK • DIAGNOSTIC LABORATORIES • IMAGING SERVICES
SHREE KRISHNA HOSPITAL

With an experience of over 35 years, Shree Krishna Hospital, Karamsad is the most dependable destination for healthcare. Our comprehensive set-up ensures that you do not have to move from pillar to post for any essential medical care required during treatment. The experienced team of experts and well-trained support staff make sure you receive the care with steadfast dedication and warmth.

Neurology, our Area of Excellence:

At Shree Krishna Hospital, we believe in providing dedicated, rational and evidence based care to our patients. Patients with neurological disorders often suffer because of lack of correct diagnosis as well as correct management advice. That’s why we are dedicated to both – Diagnosis and Treatment, and to educating our patient’s about their condition so that they can improve their quality of life.

The hospital also offers surgical support for neurological diseases. Surgeries for removal of brain tumours, spine tumours, facial pain syndromes, minimally invasive spine surgery, are routinely performed here. Over the years, we have successfully treated over ten thousand patients for varied conditions.

Neurology

- Epilepsy
- Movement disorders
- Neuroinfections and neuro-immunology
- Neuro-muscular disorders
- Stroke
- Sleep disorders
- Headache and migraine
- Cognitive impairment/Dementia
- Parkinsonism
- Cerebral Vein sinus thrombosis
- Neuropathy
- Muscle disorders
- Myasthenia gravis
- All kinds of neurological conditions

Neurosurgery

- Head injury
- Spinal injury
- Brain tumours
- Spinal tumours
- Brain haemorrhage
- Nerve injuries
- Hydrocephalus
- Congential malformations
- Chiari malformations
- Spinal dysraphism
- Minimally Invasive Lumbar Spine fusion
- Minimally Invasive & Endoscopic Spine Surgery for disc prolapse or stenosis

Facilities

- EEG [Electroencephalography] and Short Term Video EEG [STVEEG]
- Portable EEG for patient in ICU
- NCS [Nerve Conduction Study]
- EMG [Electromyography]
- RNST [Repetitive Nerve Stimulation]
- Auditory Evoked Potentials
- Round the clock 128-slice CT Scan for CT Angiography and CT Perfusion Study
- 1.5 Tesla MRI Machine with ability to MRI Spectroscopy, Epilepsy protocol and other special sequences for various neurologic disorders
- Dedicated state-of-the-art Modular Operating Theatre with Leica Operating Microscope, Neuro drill, micro instruments
- Medtronic Quadrant II retractor system for Minimally Invasive Spine surgery
- Foraminoscope/Endoscope for Spine and Brain Endoscopic surgery
- Radiosurgery and Radiation Oncology for brain tumors
- Medical and Surgical Intensive care units with qualified intensivists
